2. Installation of “KEW Report”

- (1) Always check the followings before installing “KEW Report” .
 - To prepare your system for installation, please close all open programs.
 - Be sure NOT to connect the instrument to a PC until the installation completes.
 - Installation shall be done with Administrator right.

- (2) Insert the supplied CD-ROM containing “KEW Report” in your PC’ s CD-ROM drive. Then the following pop-up will appear at the upper right on the screen. Left-click on this box.

- (3) Click **Run install.exe** when the box as shown below appears. If User Account Control dialog box appears, click **Yes**.

- If neither (2) nor (3) appears, click the CD icon and run “install.exe” file.

- (2) Click **Ports (COM & LPT)** to see the COM port number assigned for the instrument.

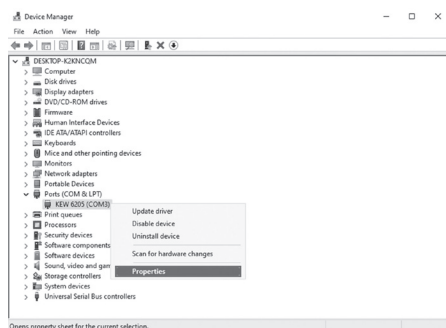

- (3) If the assigned number is out of COM1 to COM32, follow the instructions described in **5. Changing COM Port No.** and change the number accordingly.

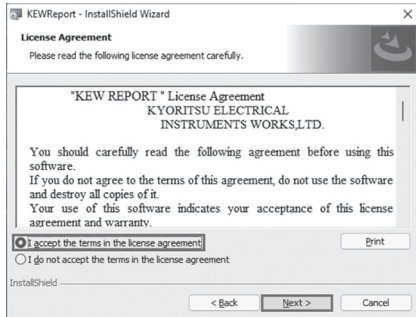

5. Changing COM Port No.

- (1) Follow the procedures described in **4. Checking COM Port No.** and perform steps (1) to (3).

- (2) After performing step (3), select the displayed instrument name (**COMx**) and click **Properties**.

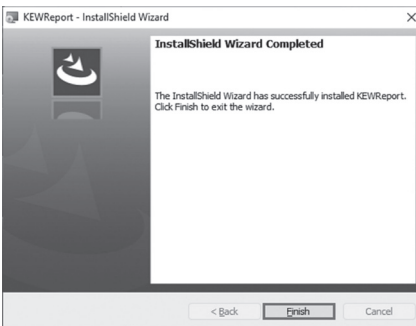

- (4) Read through and understand the License Agreement and click “I accept...”, and then click **Next**.

- (5) Confirm the information on installation, and then click **Install** to start installation.

- (6) Click **Finish** when “InstallShield Wizard Complete” dialog box appears. When the installation wizard completes, subsequent installation begins automatically. Please refer to **3. USB driver installation**.

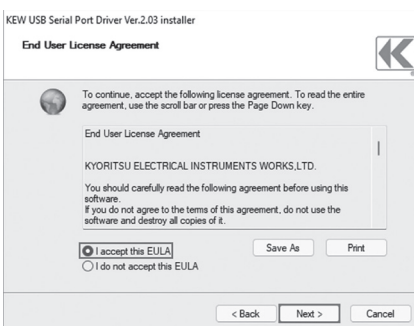

How to un-install “KEW Report” :
Open the Control panel, click **Programs and Features** and select “KEW Report” .

3. USB Driver Installation

- (1) When KEW Report has been successfully installed in your computer, the following dialog box appears to start installing the USB driver. Click **Next**.

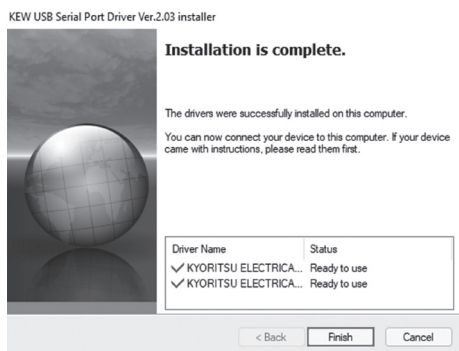

- (2) Read through and understand the End User License Agreement and click “I accept...”, and then click **Next**.

- (3) If the following Security Warning message appears, click **Install**.

- (4) Installation completes when the following window appears. Click **Finish**.

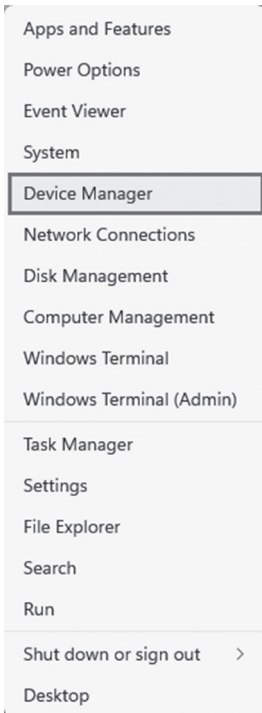

The USB driver has been successfully installed.

To restart the interrupted USB driver installation process, right click on the CD drive and click Open. Click and start “kewusbserial200_setup.exe” in the DRIVER folder.

How to un-install the USB driver:
Open the Control panel, click **Programs and Features** and select “**Windows Driver Package - KYORITSU ELECTRICAL INSTRUMENTS WORKS, LTD. KYORITSU USB Driver Package-Bus**” .

4. Checking COM Port No.

- (1) Right-click **Start** button and then **Device Manager**.

6. Starting KEW Report

Start “KEW Report” by; 1) clicking the icon for “KEW Report” on your desktop, or 2) clicking **Start -> Program -> KEW -> KEW Report**.

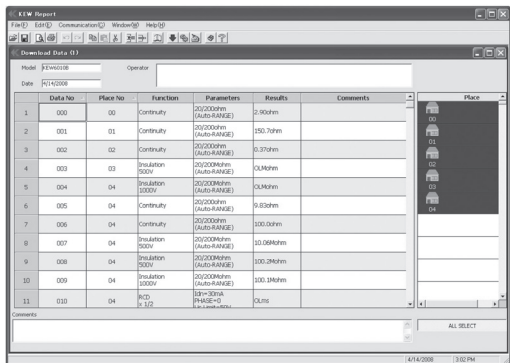

- (1) COM Port setting

Click **Communication -> COM Port** on the Main Window of “KEW Report”, and select the pre-set COM Port number.

- (2) Download

Click **Communication -> Download** on the Main Window of “KEW Report” . Then the following window appears. Click **Exit** or “x” box at the upper right of the window to close the program.

Further detailed information is given in the **HELP**.
